Just Released - New ETA International Website Features Better Tools

ETA International unveiled a brand new website this month. Using feedback from members, educators, certification holders and professionals from the electronics industry, ETA has implemented many new features in the design and content.

“Since its inception in 1978, ETA has grown within the certifications and electronics industries and it is our goal to continue to offer new and exciting products and services to meet our member’s needs,” said Teresa Maher, ETA International President.

The website includes a multitude of new features for members and visitors. Here are a few:

- **Better navigation** – The entire site has been rewritten for better clarity and understanding.
- **New Content** – We have expanded our site to include more comprehensive news coverage of the Electronics industry, in addition to updates with our new ETA certifications.
- **New Download Section** – Download ETA competencies, Practice Exams and the new ETA Certification Booklet in one easy to access click.
- **New Forums** – Share information with fellow Technicians, Educators and ETA Committee Members.
- **Online E-Store** – Now you can securely purchase Merchandise, Study Materials, Test Reviews and ETA Memberships instantly online.
- **New Members Only Section** – Complete with industry updates, ETA publications Member Forums and Practice Exams. Members will also be able to edit their own contact information.

ETA will continue to make strides to better connect our members and certification holders to the industry. Please continue to check the website as improvements are added. If you have questions please contact ETA at 800-288-3824 or email marketing@eta-i.org.

About ETA International - Founded in 1978, the Electronics Technicians Association International is a not-for-profit, professional association promoting excellence in electronics technologies through certifications. The association’s initiatives are to provide a prominent certification program of competency criteria and testing benchmarks that steers international electronics standards and provides renowned professional electronics credentials.

Today, ETA has issued over 100,000 technical certifications covering more than 70 certification programs in a variety of electronic fields. The association is comprised of over 3,500 members, 700 Subject Matter Experts (SME’s) serving on various Industry Advisory Committees and 1,000 Exam/Certification Administrators (CA’s). ETA aligns with individual professional goals, vocational and educational curriculums, and businesses’ resource initiatives through our certification programs, conferences, speaking engagements, and book and journal publications.
