FOR IMMEDIATE RELEASE

MID-STATE COMMUNICATIONS, NEWEST CERTIFIED SERVICE CENTER (CSC)

Achieves Certification and Joins a Growing List of Motorola's Authorized Service Centers

GREENCASTLE, Ind. – A leader in their service industry, Mid-State Communications and Electronics, Inc. has been recognized for its accomplishment in becoming an approved Certified Service Center. Mid-State Communications, has met the requirements of the Certified Service Center (CSC) program, an all-industry initiative backed by the leading electronics industry associations and major product manufacturers.

The CSC program established a service industry standard to provide positive service experiences to the consumers. The CSC program was designed to identify service facilities that strive to provide honest, responsible, competent and world-class customer service.

Mid-State Communications continues to ensure its promise to deliver maximum return to its customers by obtaining CSC approval. Mid-State Communications committed to a rigorous application process and agreed to comply with the common goal of the service industry associations, excellence in customer service.

The CSC program is administered and requires approval by the following National Associations: Consumer Electronics Association (CEA), Electronics Technicians Association, Intl (ETAI), National Electronics Service Dealers Association (NESDA), the North American Retail Dealers Association (NARDA), the Professional Service Association (PSA), United Servicers Association (USA) and the Nationwide Association of Authorized Motorola Service Stations [USMSS]. Recertification is required every three years.

More information on this topic or an application for a Certified Service Center (CSC) can be obtained by contacting ETA International at eta@eta-i.org, (or visit www.certifiedservicecenter.org).

Mid-State Communications and Electronics, Inc., an authorized Motorola service center, has served customers in the public and private sector business for over 50 years. Located in Oriskany, New York, it offers multiple electronic and wireless communication products, along with installation, maintenance, consulting and grant writing services throughout the Northeast, ranging from two-way radio systems to tower site construction. www.midstatecomm.radio-dealers.com

- more -

Certified Service Center (CSC) is a service industry standard certification supported by most leading Fortune 10 organizations, Service Oriented Businesses, and Service Trade and Professional Associations. Associations backing the CSC initiative post lists of those achieving CSC certification on their web sites. Organizations eligible to become CSC businesses are centers servicing consumer electronics, audio/video equipment, computers, security systems, communications, automotive electronics, satellite/antenna, biomedical electronics equipment, business office equipment and appliances.

ETA[®] International, Electronics Technicians Association, International, founded in 1978, is a not-for-profit, professional association promoting excellence in electronics technologies through certification. The association's initiatives are to provide a prominent certification program of competency criteria and testing benchmarks that sustain international electronic standards and renowned professional electronics credentials. As electronics integrates with emergent technologies, ETA's complex testing results in a certification that testifies to the individual's expert skills and knowledge.

ETA certified nearly 10,000 technicians in 2006; 692 Subject Matter Experts (SME's) serve on various Certification Advisory Committees; Training Facilities all around the world staff 870 Exam/Certification Administrators (CA's). ETA aligns with individual professional goals, vocational and education curriculums, and businesses' resource initiatives through certification programs, conferences, speaking engagements, book and journal publications. www.etainternational.org
