ETA International to Exhibit at PV America

GREENCASTLE, Ind. – March 15, 2011 –Join ETA International at PV America 2011. The event takes place April 3-5, 2011 in Philadelphia, Pennsylvania at the Pennsylvania Convention Center. Be sure to visit us at booth number 829.

PV America expects to host nearly 3,000 buyers, technology experts, and industry leaders. At PV America attendees will be able to intermingle with industry leaders exhibiting their newest photovoltaic technologies and solar development, network and develop partnerships, and gain vital information on federal, state, and local policies and incentives for businesses and consumers. Among the attendees of PV America will be installers, contractors, builders, architects, distributors, municipal procurement personnel, engineers, utilities, investors and financiers, developers, and federal, state, and local government representatives. For more information on PV America please visit: www.pvamericaexpo.com.

ETA International will be showcasing their Photovoltaic Installer Level 1 certification. This certification provides credentials for those working in solar system installations. ETA's Photovoltaic certification is set apart from other certification providers by the hands-on testing requirement in addition to the traditional theory examination.

ETA International to Exhibit at PV America

March 15, 2011

Individuals taking ETA's Photovoltaic Installer Level 1 certification exam must have hands-on training from an ETA approved school and be knowledgeable in topics such as solar resources and principles; selection identification; proper installation sequence; performance characteristics and troubleshooting methods; permitting, best safety practices; and economic impact.

ETA will also be showcasing Mike Holt's newly released book, *Understanding NEC Requirements for Solar Photovoltaic Systems*. In this book Mike addresses possible conflicts, confusing NEC requirements, tips on proper electrical installations, and warnings of dangers related to improper electrical installations. ETA International is excited to be offering Mike's book, which can be purchased on ETA's website for \$48/non-member and \$44/member. Mike's book is an excellent study resource when preparing for ETA's Photovoltaic Installer Level 1 certification examination.

The ETA Photovoltaic Installer Level 1 examination fee is \$150. To learn more about this certification, ETA's Alternative Energy Program, or to locate qualified training groups visit: www.certifymegreen.org or call 800.288.3824.

ETA[®] International - Founded in 1978, the Electronics Technicians Association International is a not-for-profit, professional association promoting excellence in electronics technologies through certifications. The association's initiatives are to provide a prominent certification program of competency criteria and testing benchmarks that steer international electronic standards and renowned professional electronics credentials. Today, ETA has issued over 110,000 technical certifications covering more than 70 certification programs in a variety of electronics fields. The association consists of over 5,000 members, 625 Subject Matter Experts (SME's) serving on various Industry Advisory Committees and 950 Exam/Certification Administrators (CA's).
